KOMAL KUMARI

MCA, Python Django Developer | Software Engineer

kb3723015@gmail.com 7257992710 @komalkumari @KomalKumari14072003

Noida, India, 201301

Profile

Python Developer with 2+ years of experience in backend and full-stack web development using Python, Django, FastAPI, React.js, and PostgreSQL. Experienced in building scalable REST APIs, payment gateway integrations, role-based access systems, and enterprise-level applications. Currently contributing to the IRMARS project at CRIS (Centre for Railway Information Systems) for Indian Railways.

Professional Experience

Full Stack Developer Mar 2026 – Present | Delhi, India

CRIS (Centre for Railway Information Systems)

- Contributing to **IRMARS** (Indian Railways Maintenance & Asset Resource System).
- Developed and maintained modules using **Python, Django, Django REST Framework.**
- Designed and optimized **REST APIs** for asset and maintenance management workflows.
- Worked with **PostgreSQL databases** and performance optimization.
- Collaborated with cross-functional teams for deployment and production support.
- Implemented authentication, authorization, and role-based access control.
- Participated in bug fixing, testing, and system enhancements.

Python Developer Oct 2024 – Feb 2026 | Noida, India

VGA Infotech (Noida, Uttar Pradesh)

- Developed backend services using **Python, Django, FastAPI**
- Created and managed **RESTful APIs**
- Integrated **payment gateways** and third-party services
- Implemented **FCM notifications** and location tracking
- Tested, optimized, and maintained APIs using **Postman & Git**

Python Developer Intern Aug 2024 – Sep 2024 | Greater Noida, India

CODTECH IT Solutions Pvt. Ltd.

- Developed and deployed a full-stack TODO application using **Python,Django and PostgresSQL, improving task management efficiency.**
- Designed **REST APIs and implemented data validations, exception handling, and CORS configurations.**
- Used **Postman** for **API testing and integrated** backend with custom frontend.

Full Stack Developer Intern Apr 2024 – May 2024 | Greater Noida, India

Softappear tech solutions pvt.ltd

- Built a responsive website frontend using **HTML, CSS, and JavaScript** for a dynamic web application.
- Collaborated via **GitHub** and participated in weekly code reviews to improve code quality.
- Optimized UI for cross-device compatibility and improved user experience.

Skills

- Programming Languages: Python, JavaScript, SQL
- Backend Development: Django, Django REST Framework (DRF), FastAPI, RESTful APIs, Authentication & Authorization, Role-Based Access Control (RBAC)
- Frontend Development: React.js, HTML5, CSS3, JavaScript, Bootstrap
- Databases: PostgreSQL, MySQL
- Data Analysis & Processing: Pandas, NumPy, Data Cleaning, Data Validation, Report Generation, Excel/CSV Data Processing
- Tools & Utilities: Git & Version Control, REST API Integration, VS Code, Postman Local Storage (Key-Value Storage), Debugging & Performance Optimization
- Payment Gateways: Payment Gateway (Razorpay, PayPal, Stripe)
- Integrations: Facebook Integration, Gmail Integration, Firebase Cloud Messaging (FCM) Notifications

Projects

IRMARS (Indian Railways Maintenance & Asset Resource System) Mar 2026 – Present

- Developed and maintained an Enterprise Asset Management System for Indian Railways using **Python, Django, Django REST Framework, and PostgreSQL.**
- Designed and implemented scalable **RESTful APIs** for asset lifecycle management, maintenance tracking, and reporting modules.
- Developed **role-based access control (RBAC) and workflow automation** for multiple user roles.
- **Optimized database queries, API response times,** and overall system performance.
- Utilized **Pandas and NumPy** for **data analysis, report generation, data validation, and processing** large maintenance datasets.
- Integrated data export functionalities (Excel/CSV reports) and automated reporting workflows.
- Collaborated with **CRIS development teams** for **testing, deployment, production releases, and issue resolution.**
- Followed **Git-based version control, code review practices, and Agile development methodologies.**

Ayushmantra – MLM Software Dec 2025 – Feb 2026

Website: http://ayushmantra.com/

Currently Working

- Currently working on **MLM (Multi-Level Marketing) software development**
- Developing **backend REST APIs** using **Python (Django/FastAPI)** with **React frontend integration**
- Implementing role-based modules for **Admin, Vendor, and Customer**
- Building features for **user hierarchy, commission calculation, and reports**
- Implementing secure authentication, structured data workflows, and performance optimization

NiviApp – Health Management Application Mar 2025 – Nov 2025

Website:https://niviapp.in/

Android App: https://play.google.com/store/apps/details?id=com.niviapp.deveshtechapp&hl=en_IN

- Health management mobile application for **medication and appointment tracking**
- Developed **backend APIs** using **Python (Django/FastAPI)** integrated with **React**
- Implemented role-based access for **Admin, Doctor/Vendor, and Customer**
- Built features for **medication reminders, health records, and notifications**
- Performed API testing, debugging, and performance optimization

BdayFy – E-commerce Application Oct 2024 – Feb 2025

Website: https://bdayfy.com/

Android App: https://play.google.com/store/apps/details?id=com.bdayfy.bdayfy

- E-commerce platform for cakes, balloons, and party decorations
- Developed **backend REST APIs** using **Python (Django/FastAPI)** with **React frontend**
- Implemented role-based modules for **Admin, Vendor, and Customer**
- Built APIs for **product listing, cart, orders, payments, and order management**
- Ensured secure payment workflows, data validation, and performance optimization

Education

Master's of computer application Aug 2023 – Jun 2025 | Greater Noida, India
IIMT college of engineering Greater Noida

Bachelor's in Computer Application Aug 2020 – Aug 2023 | Hazaribagh, India
Vinoba bhave university hazaribagh, Jharkhand

Certificates

Foundations of Optimization and Simulation – IIT Delhi (2026)
– Indian Institute of Technology Delhi (IIT Delhi), 2026

Python Developer
-CODTECH IT SOLUTIONS PVT.LTD(Virtual Internship)

Full Stack Developer
-Softappear tech solutions (Virtual internship)

Achievements

- Contributing to IRMARS project at CRIS for Indian Railways.
- Successfully developed and deployed multiple production-grade applications using Django, FastAPI, React.js and PostgreSQL.
- Completed Foundations of Optimization and Simulation certification from IIT Delhi.
