KOMAL KUMARI

MCA, Python Django Developer | Software Engineer
kb3723015@gmail.com 7257992710 komalkumari.com ln/komalkumari2003 KomalKumari14072003

Profile

Python Developer with 2+ years of experience in backend and full-stack development using Python, Django, FastAPI, and React.js. Skilled in building scalable REST APIs, payment integrations, and enterprise applications. Currently contributing to the IRMARS project at CRIS for Indian Railways.

Skills

Programming Languages: Python, JavaScript, SQL
Backend Development: Django, Django REST Framework (DRF), FastAPI, REST APIs, Authentication & Authorization, RBAC
Frontend Development: React.js, HTML5, CSS3, JavaScript, Bootstrap
Databases: PostgreSQL, MySQL
Data Analysis: Pandas, NumPy, Data Cleaning, Data Validation, Report Generation, CSV Processing
Tools & Utilities: Git & Version Control, REST API Integration, VS Code, Postman, Debugging & Performance Optimization

Professional Experience

Full Stack Developer **Mar 2026 – Present**
CRIS (Centre for Railway Information Systems) *Delhi, India*

- Developed and maintained core modules of IRMARS using Python, Django, and Django REST Framework.
- Implemented Monitoring Module for real-time tracking of maintenance activities and asset conditions.
- Built Detailed Estimate module to streamline cost analysis and approval workflows for railway maintenance projects.
- Implemented authentication, authorization, and role-based access control (RBAC) for secure user management.

Python Developer **Oct 2024 – Feb 2026**
VGA Infotech *Noida, India*

- Developed backend services using Python, Django, FastAPI.
- Integrated payment gateways and third-party services.
- Implemented FCM notifications and location tracking.
- Tested, optimized, and maintained APIs using Postman & Git.

Projects

Ayushmantra | *MLM Software* | ayushmantra.com **Dec 2025 – Feb 2026**

- Developed MLM software with backend REST APIs using Python (Django/FastAPI) and React frontend.
- Implemented role-based modules for Admin, Vendor, and Customer.
- Built features for user hierarchy, commission calculation, reports, and secure authentication.

NiviApp | *Health Management Application* | niviapp.in **Mar 2025 – Nov 2025**

- Health management mobile app for medication and appointment tracking.
- Developed backend APIs using Python (Django/FastAPI) integrated with React.
- Implemented role-based access for Admin, Doctor/Vendor, and Customer, including reminders and notifications.

BdayFy | *E-commerce Application* | bdayfy.com **Oct 2024 – Feb 2025**

- E-commerce platform for cakes, balloons, and party decorations.
- Developed backend REST APIs using Python (Django/FastAPI) with React frontend.
- Built APIs for product listing, cart, orders, payments, and order management.

Education

Master's of Computer Application (MCA) **Aug 2023 – Jun 2025**
IIMT College of Engineering *Greater Noida, India*

Bachelor's in Computer Application (BCA) **Aug 2020 – Aug 2023**
Vinoba Bhave University *Hazaribagh, Jharkhand, India*

Certificates and Achievements

- Foundations of Optimization and Simulation – IIT Delhi, 2026
- Python Developer – CODTECH IT Solutions Pvt. Ltd. (Virtual Internship)
- Full Stack Developer – Softappear Tech Solutions (Virtual Internship)
